

ENOVIS™ Showcases Next Generation of Medical Technology at the American Academy of Orthopaedic Surgeons (AAOS) Annual Meeting

March 3, 2023

Medtech Leader Highlights Power of Collaboration in Its Continued Success and Innovation

Wilmington, DE, March 03, 2023 (GLOBE NEWSWIRE) -- [Enovis Corporation](#) (NYSE: ENOV), an innovation-driven medical technology company, announced that it will feature its next generation of medical technology at the upcoming American Academy of Orthopaedic Surgeons (AAOS) Annual Meeting March 7-11, 2023 in Las Vegas. Aligned with AAOS, Enovis will also introduce its 'Better Is' corporate brand campaign that emphasizes the company's ongoing collaboration with healthcare professionals, customers, and their patients, and how these partnerships advance medtech.

"For more than 40 years, Enovis – formerly DJO® – has worked to make the impossible possible through our groundbreaking products, services and software. But we know this great work can't be accomplished alone," said Matt Trerotola, CEO of Enovis. "At AAOS and beyond, we are excited to highlight how these partnerships are shaping the next generation of medtech."

"The 'Better Is' campaign represents the invaluable collaboration I've experienced with Enovis as we revolutionized shoulder arthroplasty together through the design, development, research, and continued refinement of the [AltiVate Reverse®](#) Shoulder System – ground-breaking medical technology that now has 10 years of proven clinical data showing no decline in patient outcomes¹," said Mark A. Frankle*, M.D., Florida Orthopedic Institute. "I look forward to continuing to collaborate with Enovis on research that will help our development of even more next-generation orthopedic solutions that aim to improve patient results."

Enovis is planning to feature a number of its products from across multiple business units at this year's AAOS Annual Meeting, including:

- **Enovis Surgical** will spotlight its [EMPOWR Revision Knee™](#), which is redefining revision with just one additional instrument tray and stackable augments for the femur and tibia, and [AltiVate® Anatomic Augmented Glenoid \(AG\) System](#), which maximizes treatment solutions and is the only system available with both pegged symmetric and half-wedge augments. Live demos of the next generation [ARVIS](#) Augmented Reality System will also be available showcasing real-time, hands-free surgical guidance that is both efficient and space conserving for knee and hip arthroplasty.
- **Enovis Bracing & Supports** will showcase its industry-leading [Kelvi® Pro^e](#) and [EXCYABIR™](#) Hip Brace as the company targets a quickly growing hip arthroscopy market segment.
- **Enovis Healthcare Solutions** will exhibit its [OaraScore®](#) Outpatient Arthroplasty Risk Assessment software as a part of Enovis' industry-leading Healthcare Solutions platform, MotionMD®.
- **Enovis Foot & Ankle** will feature its [DynaNail Helix™](#) with disruptive NiTiNOL technology and recently approved [STAR®](#) Ankle Patient Specific Instrumentation (PSI).

Find Enovis™ at AAOS

Enovis™ will be exhibiting at booth #821 in the Venetian Convention & Expo Center at AAOS. The company's events at the meeting include:

- Educational event focused on upper extremities titled "Maximizing Your aTSA Glenoid Solutions" on March 7 at 7:00 pm PT. Registration is available [here](#).
- Educational event titled "Education with the Experts: Dual Pivot TKA, Revisions and Advanced Technology" on March 9 at 6:00 pm PT. Registration for this event is available [here](#).
- Educational event to hear Ariel Palanca*, M.D. present biomechanical data from Enovis researchers regarding advances in total ankle polyethylene longevity on March 8 at 11:40am. This presentation is part of the AAOS Foot and Ankle I Papers session occurring from 11:00am to 12:30pm PT in Room 2103.

**Drs. Frankle and Palanca are paid consultants of Enovis.*
